

Announcing a Member-Helping-Member Concall

We are delighted to announce that Rita Foley will conduct a member-helping-member concall based on her book and workshops "Reboot Your Life: Energize Your Career & Life by Taking a Break".

Reboot Your Life seminar

Rita Foley, DEC 1982-1999, professional board director and former President of MeadWestvaco Consumer Packaging, and a co-author of *Reboot Your Life. Energize your Career and Life by Taking a Break*, will help us take a step back to better know what is important to us and to identify what we need to live more rewarding and successful lives. You'll hear why so many people are taking a break -- a sabbatical -- from work to find their passion. Great for pre-retirement planning too.

This concall will be held on Wednesday evening, April 4, from 6 - 7 PM EDT.

This conference is free to our paid-up members (others who wish to attend are welcome to join ahead of the concall at www.deconnection.org/join.htm). Dial in to expand your horizons and get new ideas!

To REGISTER: Send email to webmaster@deconnection.org. You will receive an acknowledgment email with instructions for the concall. If you are not a paid-up member please join before you register.

Rita is our current Featured Entrepreneur and you can read a bit more about her expertise [on our website at this link](#).

About DEC Connection Local Chapters

Many of you might not realize that our local chapters are started by member volunteers. If you are interested in meeting other ex-DECcies nearby, consider calling an informal meeting at the local library or pub to see if there is sufficient interest - it doesn't have to be ambitious; an occasional meeting is fun, and you might meet new friends who share your values. Members can generate lists of other members by geographic area using the Member Service Center - use the 3-digit zip search. Email webmaster@deconnection.org for help.

DEC Connection Member NewsBytes: send yours to

We had a great response with NewsBytes from our renewing members, so some of these notes will appear in future issues - thanks all for keeping us up-to-date!

- From **Sandra Cooper**: My retirement years have been spent traveling Florida, Georgia, and Tennessee in our 36' Winnebago - Adventurer. We mostly stay at State Parks and Disney's Fort Wilderness Resort. The Alaskan tour/cruise, last year, was the best cruise we have ever taken. So, I guess we are always looking for new adventures. If DEC Connection organizes a cruise, I would love to hear about it. slcooper@tampabay.rr.com
- **Dr. Margaret Britt** (DEC 1974-1994) continues to teach in the MBA program at Mount Vernon Nazarene University in Mount Vernon, Ohio. She also vacations at her home in Florida. meje7@aol.com

- From **Ed LoTurco**: Retired from my own Consulting Business and continue as Lexington High School Track & Field Coach. Preparing for my 10th year riding for the Pan Mass Challenge (PMC) while enjoying time with family and travel. eloturco@verizon.net
- From **Bob Glorioso**: Dee and I are spending the heart of the winter at our little condo in Florida before returning to Stow to sing in the Sounds of Stow Festival Chorus and Orchestra's winter concert on March 18. Thanks to some of the technology we pioneered at DEC, I am able to keep up with my BOD and technical consulting work while watching Manatees swim by. Bob & Dee Glorioso, Riviera Beach, FL. rglorioso@comcast.net
- From **Joel Smith**: Retired for the third time in 2007. The first was from DEC in '92 (SERP). Currently looking for an at home business. smith_j_f@yahoo.com
- From **Ray Ferrara**: Does any one know where Ken Gordon, the former head of DSTAR, is located? I have run across a new type of database that is self-defining and want to discuss it with him. rferrara@rbmtechnologies.com
- From **John Friedrich**: I am currently with Dell's Nashua Design Center (NDC) [formerly ZKO2] functioning as a Global Supplier Quality Management Sr. Advisor A.K.A. Supplier Quality Engineer. Joined what was the EqualLogic a start-up in the iSCSI storage array space in 2007 and was quickly acquired by Dell. Nice to see the rest rooms still had the chalkboards in them. This year they may call me a Global Operations Engineer, and responsibilities shifting accordingly. Connections on LinkedIn and Facebook. johnfriedrichjr@gmail.com
- From **Gary Piel** in Colorado Springs CO: I am enjoying retirement, traveling some, and occasionally (although lately more frequently) driving cars around Colorado for Hertz Rental Car Co. p_gp372107@msn.com
- From **Kathy Chapman**: I'm a patent attorney at the Naval Research Lab, working on software patents. Wouldn't be able to do this job without my engineering experience at DEC. But more than that, DEC taught me how the workplace should be, it was a paradigm shift kind of place, the rest of the world will eventually catch up, I hope. chapman.kathy@gmail.com

We have more NewsBytes and will continue next month... send YOURS in!

TECHNICAL guru needed!

We received Email from **Jim "JR" Harris**, who has a Digital **Alpha Personal Workstation 500a** that has obviously been upgraded to an au that he is working to get get Linux/BSD installed on.

- Do you know where I can get technical information about this machine? Particularly information on the CPU dip switch settings, the diagnostic LEDs and such.
- Do you know what are "the best" or preferred Linux/Unix/BSD systems to run on the Alpha PWS au series? (Or what others have used, and know works?) Preferably something that is still being maintained for the Alpha.
- Do you know what the maximum usable IDE hard drive is? (None of the doc's I have seen reference anything larger than 6 gigs, however I strongly suspect that larger IDE drives probably did not exist at that time.

Any help would be be gratefully appreciated. 508-595-9382 jimrh@charter.net
