Thanks to the "DECconnection" for excellent communications, with our DEC family, and keeping the DEC network and spirit alive. Our company was more than a job to many of us, it was an unforgettable and productive working experience.

- **Bob Moore** asked to mark the occasion of the 40th anniversary of our leaving South Vietnam after ten years, which occurred on 29 March 2013, expressing thanks to the veterans in our group who served.
- **Jack Burness** writes from Colorado Springs: For those that remember Moonlander on the GT40, it was created 40 years ago, just about on February 1, 1973. With the "final" and much used version being created

on February 25, 1973. But thanks to Rick Naro you can play it right now. On your iPad (sorry, it doesn't work on an iPhone). It is amazingly like the original. Just download the app Moonlander Classic by Paradigm Systems from the appstore. It's free. And amidst the credits and FAQs there are interesting tidbits of information, including the original source code... forums@burness.com
