2) Send an email with your name, preferred e-mail address, and telephone number to webmaster@deconnection.org to register, with Subject: MAY 19 CONCALL REGISTRATION, along with 1 or 2 QUESTIONS (related to the 5 topics above) for our panelists in advance - they will have time to research many of them, and reply on air. - **Ray Iannuzzelli** writes: I wanted to share some very positive news that had its origin at the Digital 50th Reunion a few years ago. My wife and I went to the reunion with a friend and his wife who also had been employed at DEC. As a mechanical engineer with a long interest in solar energy, I was very interested in one of the companies displaying their products, NanoOptics, whose solar H2 generator peaked my attention. After talking with the owner about mechanical issues his equipment might experience and exchanging business cards I soon forgot about NanoOptics until almost a year later when I received an email requesting a quotation for some mechanical analysis services. I replied with a quotation, got the work, and started my consulting company, R.J Iannuzzelli LLC. Now, a year after starting that work and my company I am still going with two current clients, both startups. So thanks to **The DEC Connection** for the obscure and circuitous start of my consulting company. Best Wishes, **Ray Iannuzzelli**, riannuzzelli@comcast.net, 603-672-2701
